

# IVR 100/22 TEXTILE

Order No. : 9.870-300.0

TVC series industrial vacuum cleaners are designed to collect light and bulk material in textile, paper and plastic industry. The vacuum unit is positioned at the bottom of the vacuum cleaner and the material is extracted through the suction inlet at the top of the vacuum cleaner, the material is collected in the filter cum collection bag. The collected material is compacted by the suction which makes it easy to collect more material in the available space. The filter bag can be easily taken out and the collected material can be emptied.

These vacuum cleaners are mainly used in Paper, Textile, Packaging, Plastic industries.

## Features:

- Silent and maintenance free side channel vacuum unit.
- Easy removal of the collected material.
- No filter clogging problem.
- See through window for material level indication.

**TECHNICAL DETAILS**

Voltage	V	415
Frequency	Hz	50
Electrical Protection	IP	55
Insulation Class	Class	F
Rated Power	KW	2.2
Air Flow	m <sup>3</sup> /h	300
Vacuum Max	mm H2O	3000
Noise Level	dB(A)	72
Container Capacity	Litres	120
Filter Type	Type	Bag
Inlet	mm	40
Dimension (LxWxH)	cm	60x65x120
Weight	Kg	40

**Options:**

- Stainless steel AISI 304 body.
- Polyester filter bags (for dust applications – class L or M).

**Accessories Kit: 40/50 mm Dia**

1. PVC 40mm dia hose (3 mtrs)
2. Plastic Crevice Nozzle
3. Plastic Round Brush Nozzle

Note: Accessories are not part of the equipment, to be ordered separately depending upon the application.
